Marco Fernandes Xaud

Marco F. S. Xaud holds a B.Sc. in Control and Automation Engineering and an M.Sc. in Electrical Engineering from the Federal University of Rio de Janeiro (COPPE/UFRJ), and is currently pursuing a Ph.D. in Robotics at the Norwegian University of Life Sciences (NMBU). With extensive expertise in robotics R&D, his focus and previous experience span offshore, subsea, and agricultural applications, as well as control systems and electronics. He recently joined Equinor at the Brazil Research and Development Center, where he works as a researcher and lead of projects in Robotics, Control, and Automation.
